Programme Support Tutor

Grimsby

March 2025

IntoUniversity 

Welcome from our CEO Dr Rachel Carr

Dr Rachel Carr
Chief Executive Officer
& Co-Founder

My name is Rachel Carr and I am one of the founders of **IntoUniversity** and its current CEO.

We're an award-winning charity running local learning centres in the heart of the communities where the young people we support live. Our centres provide a high-impact education programme which includes practical learning support, pastoral care, and motivational and confidence-building activities for young people aged 7-18. Our aim is to enable students from the least advantaged neighbourhoods to realise their ambitions and achieve their wonderful potential.

As the UK's leading university access organisation, our staff team is helping over 50,000 young people each year at its 44 learning centres and extension projects across England and Scotland, and we plan to scale-up our provision to 50 centres over the coming years.

We are looking for individuals who will **enjoy working each day with young people and who will thrive in a frontline, community-based, fast-paced and rewarding role.** You will be taking up a **permanent** role as a part-time Programme Support Tutor working in our centre in Grimsby. You will work closely with our existing team, supporting the delivery and organisation of the **IntoUniversity** programme in the centre.

As a charity with social mobility as its core objective, IntoUniversity is wholly committed to equality of opportunity. We work with children and young people from a diverse range of backgrounds, and we believe that our staff team should be similarly diverse and representative.

The more inclusive we are, the better our work will be, and we recognise that we have much more to do in this regard. We are committed to building a culture where students, staff and volunteers are valued for the unique people they are. We therefore encourage applications from candidates from as wide a range as possible of ethnic, cultural and social backgrounds. In particular, we actively and warmly welcome applications from Black, Asian and minority ethnic candidates, male candidates and candidates with a disability as they are currently under-represented within **IntoUniversity**.

If you believe that all young people deserve the chance to develop their talents regardless of their background and want to play a part in helping them succeed, then we would be delighted to hear from you.

Thank you very much for your interest and I look forward to receiving your application.

About Us

IntoUniversity provides local learning centres where young people are inspired to achieve.

At each local centre, **IntoUniversity** offers an innovative programme that supports young people from disadvantaged neighbourhoods to attain their chosen aspiration, including further and higher education, employment and work-based training.

Our mission is to provide local support that can break cycles of disadvantage and open up new opportunities for young people. We believe in the talent of every young person, and do not limit our support to those young people who have been labelled 'bright' or 'gifted'. We believe that, with support, every young person can progress to an excellent post-school destination and we are committed to helping them on this journey.

Our network has grown to 44 centres across England and Scotland – from Newcastle to Norwich and East Ham to Edinburgh – supporting over 50,000 young people each year. But each centre is just like our very first: a local hub for young people, based on their doorsteps.

Use of AI

At IntoUniversity, we might use technology to help us to manage the recruitment process, but we don't make decisions based on artificial intelligence (AI). We have a human approach to hiring and all applications are reviewed and assessed by our team.

Similarly, we recognise that AI can be a useful tool to support you when you're applying for a job, but what we are most interested in hearing about is **your** individual motivation, experience, skills and values, so please be yourself!

There are ways that AI can be really helpful - for example, you might choose to use it to proofread your application, including checking for spelling mistakes or helping with formatting.

There are also some pitfalls to avoid when using AI. To ensure that your application stands out, avoid standard AI answers, and make sure that your responses reflect your own thoughts and experiences. For example, we'd strongly suggest that you don't ask AI to answer why you want to work for IntoUniversity - the AI software doesn't know what motivates you. We want to hear from you!

And of course, we have no expectation for candidates to use AI - if you'd prefer not to use AI at all, that's absolutely fine.

Accessibility, adjustments and outreach

We are committed to providing reasonable adjustments throughout our recruitment process and we'll always endeavour to be as accommodating as possible.

If you require a different format of the application form, such as large print or Word format, or if you would like to discuss any specific requirements, please get in touch with us at jobs@intouniversity.org or call 0207 243 0242 and ask to speak to a member of the HR Team.
